Hello Bookcliff community!

We had a very active day here at Bookcliff Middle School. Early this morning, there was some distasteful flyers placed on our doors. Administrative staff arrived early and immediately removed them before too many staff and students arrived to start their day. Please know that these flyers in no manner represent the opinions of the staff of Bookcliff or the School District.

At 10:38am, we received information that a locker may have a weapon inside. We worked quickly with the D51 Security and the Grand Junction Police Department Protocol in order to determine the validity of the threat. We placed the school into Shelter-in-Place as a precaution while Law Enforcement searched the area and talked to student witnesses. The report was unfounded, and we continued our day after about an hour of interruption. Our teachers work quickly to ensure the overall safety of our students, and I always appreciate the support we receive from D51 Security and the Grand Junction Police Department. It is this partnership that ensures all students get the best access to Bookcliff, every day to pursue academics. If your student comes home and has additional information about either of these events, please have them contact us on Monday.

Take care,

Jim Butterfield and Teri Lefebre
